Hi Monica,

Friday! Get some?

Here is the thia stuff for PMRA and CDPR.

Thanks for sending...

Ryan

Good morning,

## Ex. 5 - Deliberative Process

## Ex. 5 - Deliberative Process

As for logistics, I would be happy to send the emails on to PMRA and CDPR. I think it would be simpler to have two emails (one for clothia CFS study, one for thia CFS study) since there will be a lot of associated documents, attachments, and graphs. That way each email is a distinct batch which will avoid confusion about which files are associated with which study.

Ryan and Michael / Amy, just send me an email with everything in there, and whatever you want to add in an email to PMRA and CDPR and I will forward it on and CC you all and applicable OPP folks.

Thanks,

Monica

I don't have any comments. Michael and I are revising our narrative and anticipate sending the narrative and stat outputs/graphs today.

Monica, since you have been the lead/point contact on sending things out, would you still be able to do that for both clothi and thia today?

Thanks,

Amy

Not sure who is around today but in case you haven't gotten enough neonics this week...Here is a short narrative for THIA as well comments are welcomed. If you can, please send back as soon as you can, as we are going to send to PMRA today with Clothi.

Thanks,

Ryan

Justin had some good suggestions. I added a bit on the front to remind folks of the basics of the stat analysis approach.

Hi,

Attached is a short narrative for the preliminary findings for the clothi CFS study for your review and comment prior to sending to PMRA/CDPR. Since we would like to share the statistical

results and this narrative with them tomorrow, it would be great if we could get your comments by tomorrow morning.
